BLUE LIGHT SYSTEM TO WHITEN TEETH

For a sparkling whiter smile! The FLASH&WHITE system for whitening teeth uses an advanced blue light technology system to give professional results from the comfort of your own home. A specifically formulated gel, acts together with the blue light to whiten teeth fast and safely. It ideally removes stains from tea, coffee, red wine and loss of dental enamel due to smoke or age. It is possible to regulate the power and the treatment, including the option of quick touch-up. The long, flexible support of the blue light assures an easy and comfortable use
